

FREE AI Readiness Checklist

Is Your Business Ready to Leverage AI for Productivity?

1. Strategic Alignment

- Identified business problems AI can solve
- AI aligns with strategic goals
- Leadership is committed to AI initiatives

2. Data Readiness

- Clean, centralized data available
- Data is regularly refreshed
- You understand required AI data inputs

3. Tech Infrastructure

- Cloud or SaaS setup in place
- Team has suitable hardware (laptops/tablets)
- Integration compatibility with existing systems (ERP, CRM, etc.)

4. Team & Skills

- Internal AI champion identified
- Team is open to digital workflows
- Training plan in place for new tools

5. Security & Compliance

- Core cybersecurity (MFA, antivirus) in place
- Compliance requirements understood
- AI tools are vetted for security

6. Pilot Planning

- Small initial use case defined
- Success metrics established (e.g., time saved, error reduction)
- Process for iteration post-pilot

Scoring Guide

- 12–15: Ready to Go – You're prepared to implement AI.
- 8–11: Almost There – Address a few gaps and you're set.
- 0–7: Get Prepared – Focus on alignment, data, and team readiness.
